### TRUE 4K with HDR

The Marshall V-R241-4K offers stunning color performance with a wide variety of built-in features for professional video production, broadcast, and Pro AV applications. The V-R241-4K has a beautiful 24-inch UHD panel with wide viewing angle that can display resolution inputs all the way up to 4K.

The V-R241-4K supports SDI inputs up to 12G and HDMI inputs up to HDMI 2.0, all with HDR. It comes with waveform and vectorscope functions along with in-monitor displays (IMD/UMD), tally, text, and timecode. It includes 16-channel audio bars, closed captioning decoding, built-in speakers, and more.

For system integrators, the V-R241-4K has multiple ports for control over Ethernet, RS422/485, RS232, and GPI. The V-R241-4K is also compatible with controllers from Extron, AMX, TSL, Image Video, Evertz and many other common control interfaces, making it a great choice for use in remote production, video village, industrial automation, and many other applications.
