BROADCAST & PRO AV

Y-ADP-RS232

RJ45 RS232 Cable Adapter

The **Y-ADP-RS232** enables long-distance RS232 communication between selected Marshall PTZ cameras and controllers (see our website for the latest list of compatible products). The cable is quick to set up and easy to use, extending the distance between the controller and camera up to a maximum of 300 feet (100 meters) when used in conjunction with an Ethernet cable.
